DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 4, 5, 7-10, 12-13, 15-18, 20, and 22-24 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record (Bonner) fails to teach or fairly suggest that each storage space within the storage portion is capable of storing more than one testing element, in combination with the remaining features and elements of the claimed invention, since Bonner's storage space was intended to only store one testing element at a time. In addition, Bonner fails to teach or fairly suggest a movable member attached to the storage portion and a lift portion that is part of the movable member that lifts the testing elements stored in the storage space so that they don't come into contact with the transporting member, in combination with the remaining features and elements of the claimed invention, since Bonner only contains a push rod that is in communication with the storage portion that pushes, and not lifts, the testing elements in each storage space.

Conclusion

3. The following prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Maisey et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
